NEW LOOK GROUP OF INSTITUTION
Dear Gandhiji,

I have always admired you and have come to respect you after reading about your life and sacrifices for our country. You had left us 63 years ago. If you were still around, you would have been 140 years old. However, we have not forgotten you. You are on every banknote and most stamps. There are many statues of you. Prestigious roads in almost every city are named after you. Our politicians try to model themselves on you. They wear the fabric you promoted, they quote you at every instance, they've got a photograph of you in their office and some even eat and live like you. There are books, TV programs and movies about you. Seriously, you'd have been impressed at how much we still adore you.

Apart from this, there are things that won't make you feel proud. The India you spent all your life making free, is far from freedom still millions are poor people in these 60 years, we are amongst poor nations on earth. This lack of money leads to a lot of problems in healthcare, infrastructure and education. In education, for instance, many children still don't go to a good school. The main cause for all this happening is just a disparity between rich and poor, which create a vast gap between them through growing generations which have been even misled. The discrimination is again coming back and everyone is ready to step ahead at cost of others. If you can visit us you can unite us by the way you used religious festivals as a social event and proved unity is strength. Only with a clear aim and vision, youth strength, tinge of optimism, we can take a step ahead to a new and blessed country.

"As an individual, I am trying to follow your footprint by having control over my anger, solving situation without violence, choosing correct path with conviction and passion and soon, you in every individual will be the winner. We know you have lots of hope up there."

Lots of love,

Toshit Trivedi,
Class ‐ X

A Letter to Bapu

Love is like magic
And it always will be
For love still remember
Life's sweet mystery
Love works in ways
That are wonders and strange
And there's nothing in life
That love cannot change
Love can transform
The most common place
Into beauty and splendor
And sweetness and grace
Love is unselfish
Understanding and kind
For it sees with its heart
And not with its mind
Love gives and forgives
There is nothing too much
For love to heal
With its magic touch
Love is the language
That every heart speaks
For love is the one thing
That every heart seeks.

Sonali Vishwakarma

The Magic of Love

TEETH

I bit a rock
Lost a tooth
Three other teeth,
Are quite loose...
My brother wants,
To use some glue,
To put tooth back,

So I can chew
He said to me,
You're not a shark
You can't grow teeth,
Like trees grow Bark...
You need your teeth,
Like any mammal,

Teeth are covered
With enamel,
The hardest part,
They let you bite,
Protect your teeth,
To feel alright...!

Riya Jain

DIRECTOR'S WORD

The efforts of our little masters have been given a remarkable identity to this Year Book. It aims at grooming the talents of the students and helps them to become adept at mental and aesthetic skills including reading, writing and appreciation. It is our sincere effort to enable the students to love books and to make them aware of the world of wonder and duty around and within them. This opportunity helps them to develop an enquiring mind, I hope this venture will be the landmark for the students for a bright future.

With love

Pradeep Kothari
When some sorrow, like a mighty river
Flows through your life with peace-destroying power.
And dearest things are swept from sight forever,
Say to your heart each trying hours.
"This too shall pass away"

When fortune smiles, and full of mirth and pleasure
The days are flitting by without a care.
Lest you should rest with only early treasure
Let their few words their fullest import bear
"This too shall pass away".

When earnest labour brings you fame and glory,
And all earth's noblest ones upon you smile,
Remember that life's longest grandest story
Fills but a moment in earth's little while:
"This too shall pass away".

---

NLC S took part in Inter school Painting competition on April 22, 2013, to make the students learn the importance of Earth Day. The students of NLC S won many prizes.

We shall do much in the years to come,
But what have we done today?
We shall give our gold in a princely sum,
But what did we give today?
We shall plant a hope in the place of fear
We shall speak the words of love and cheer;
But what did we speak today?
We shall be so kind in the after while,
But what have we brought today?
We shall feed the hungry souls of earth,
But what have we sown today?
We shall build up mansions in the sky,
But have we built today?
It is sweet in idle dreams to task,
But here and now do we do our task?
Yes, this is the thing our souls must ask,
What have we done today?

---

TRIPURA SUNDARI VISIT

In June 2013 Shri Pradeep Kothari, Director of New look Central School, visited Tripura Sundari Temple where Shri IV Trivedi, Vice Chancellor, MLSU was honored by him, for being elected as VC second time. Shri Prdeep Kothari also had a warm welcome at Ganpati Temple, Talwara.

---

Bharat Bhawna Diwas

NLCS Celebrated Bharat Bhawna Diwas on 6th May 2013. All teachers and students gathered for national anthem on exactly 10 AM and whole environment turned patriotic and sacred.
There are different branches of science, each focusing on a particular area here are just a few of them.

- **Anthropology**: the study of human cultures both past and present.
- **Archaeology**: the study of the material remains of cultures.
- **Astronomy**: the study of celestial objects in the universe.
- **Bacteriology**: the study of bacteria in relation to disease.
- **Biology**: the science that studies living organisms.
- **Chemistry**: the science of matter and its interactions with energy and itself.
- **Cosmology**: the science of the nature of heavenly bodies.
- **Dendrology**: the study of trees.
- **Ecology**: the study of how organisms interact with each other and their environment.
- **Entomology**: the study of insects.
- **Geology**: the science of the Earth, its structure, and history.
- **Herpetology**: the study of reptiles and amphibians.
- **Ichthyology**: the study of fish.
- **Meteorology**: study of the atmosphere that focuses on processes and forecasting.
- **Mineralogy**: the study of the chemistry, crystal structure, and physical (including optical) properties of minerals.
- **Oceanography**: study of the earth’s oceans and their interlinked ecosystems and chemical and physical processes.
- **Paleontology**: the study of life-forms existing in former geological time periods.
- **Physics**: the study of the behavior and properties of matter.
- **Physiology**: the study of the mechanical, physical, and biochemical functions of living organisms.
- **Psychology**: the study of human and animal behavior.
- **Sociology**: the study of human society.
- **Zoology**: the study of animal life.

---

**SUMMER CAMP AT NLCS**

A total of 103 students of different schools attended Summer Camp at NLCS, Lodha Campus. It was held from 20th April, 2013 to 15th May, 2013. It included sports like Basketball, Hockey, Cricket, Swimming and were coached by trained teachers of NLCS.

---

**World Health Day**

World Health Day was successfully celebrated in New Look Central School, on 7/4/2013. The students from classes I-V brought healthy food and shared it among them. The students of class VI & VII prepared mango juice and the students of classes IX & X made fruit salad using the seasonal fruits. Then a Health Mela was conducted under the guidance of class teachers.

---

**Science, Science everywhere!**

Kavisha Ahari, Class-X
Foot Ball Match

Physical development is a key factor for the health of a child. The Health Club of our school conducts a long list of programs in this concern. Sports and games play a vital role in the same. In the field of games, the students of New Look Central School stand with flying colors. In this concern, the inter house football match for class IX was conducted on 24/5/2013.

Fashion show

The little kids of New Look were in the colorful and prestigious uniform on 30/4/2013 due to the fashion show conducted in New Look Central School for the students of Nursery to V. The class teachers of each class encouraged the students for the maximum participation of the students.
Asthma is a long-lasting (chronic) disease of the lungs and airways (bronchi) that affects 5 people in every 100. In children, this figure is higher and rising.

Asthma is characterized by attacks of breathlessness, tight chest, wheezing and coughing which are caused by the airways becoming narrowed and inflamed. Some people may have these symptoms all of the time and others may be normal between attacks.

Asthma can arise at any age, but why some people have the disease and others don't is not known. People with asthma have airways that are more sensitive than normal.

- Doctors know, however, that asthma can sometimes run in families.
- Asthma attacks can be set off by many different things, these are called triggers. Examples include cold air, vigorous exercise and stress.
- These triggers may also include 'allergens'. These are present in the environment and contain chemicals that trigger allergic reactions.
- Allergens include, for example, pollen, animal dander’s, house dust, pollution, some foods, perfumes and cigarette smoke.
- Allergens cause the lining of the airways to become swollen and inflamed. It produces extra mucus and the muscles of the airways tighten. There is then less room for the air to pass in and out.

Attacks may be more frequent or severe in people who have a chest infection.

Ankita Nair, B.Com II-year

English and Hindi story writing competition

Self sufficiency in languages develops along with the development of writing skill. New Look Central School put a great step in this concern by conducting a story writing competition on 27/4/2013. All students of classes VI-X participated with great enthusiasm and spirit.

Essay writing competition

On the occasion of the world population day, an essay writing competition was conducted in the school for the students of classes VI-X. The students expressed their views about the advantages of having population and disadvantages of having over population in their own imagination. It was a competition to enhance the imagination and creativity of the students.

Why do people get Asthma?

Asthma is a long-lasting (chronic) disease of the lungs and airways (bronchi) that affects 5 people in every 100. In children, this figure is higher and rising.

Asthma is characterized by attacks of breathlessness, tight chest, wheezing and coughing which are caused by the airways becoming narrowed and inflamed. Some people may have these symptoms all of the time and others may be normal between attacks.

Solo Song Competition
In the month of July, the solo Song competition for different classes was held on different days. The students sang in a magical sound with music and rhythm.

Cultural Day Celebration
To enhance the all round development of a child, a day has been celebrated as the cultural day by each class. On this day, the students present different programs of their interest as singing, mono acting, dancing or dramatizing. This year also it has been conducted in the month of July under the guidance of the class teachers.

Plantation Day Celebration
18/7/2013 has been celebrated as the plantation Day by the students of New Look. Seeing the day today environmental problems, the students were made aware about the need of planting more and more trees. Mr. Arun Agarwal conducted an awareness program for the students of classes IX & X.

RIDDLES
1. After discovering America, what did Columbus see in his left hand?
   Five fingers
2. Why did the man throw the butter out of the window?
   To see the butter fly
3. What is the similarity between a rainbow and the police?
   Both appear in the end
4. What can you make that can't be seen?
   Voice
5. What question never be answered yes?
   Are you sleeping?
6. What did the policeman have in his sandwiches?
   Traffic jam

1. Which fish is invisible and does not live on land or in water?
   Selfish (People)
2. Which nation do we always fear?
   Examination
3. In which room we can't live?
   Mushroom
4. Which city is the most dangerous?
   Electricity
5. Which is the biggest pan in the world?
   Japan
6. On which way we can't drive a car?
   Railway

1. What is black when u buy it, red when u use it & grey when you throw it?
   Coal
2. What goes up, but never comes down?
   Your age
3. What has teeth but can't eat?
   Comb
4. What flies around all day but never goes anywhere?
   Flag
Health Mela

Health Mela was conducted on 8th April 2013, to make students aware of health concerns. A few demos were given by the students and guidance was provided to the students by Dr. Raja Mukherji.

Action Song Competition.

The little kids of New Look were in great spirit to participate in the action Song Competition conducted on 19/7/2013. The students of pre primary presented the eye catching and attractive songs in English and Hindi in front of the audience. Their performance was a matter of pride for the New Lookians.

S.U.P.W & Craft Work

From 15/4/2013 to 26/4 2013, vocational classes were conducted for the students to create imagination and creativity. The students were given the classes on different topics like cooking, doll making, tying and dying, book keeping, craft making etc. This helped the students to have knowledge of making different things of daily use by using waste materials.

Hindi Bolna Hamari Duty Hai

Ham India ke Citizen hain.
India Our Country hain.

Isliye Hindi Bolna Hamari Duty hai.

But, wohi Hindi kii to kiski Pukhi hai,
Aapka kii young generation,
Wheever mouth jiski hai.

Only and only English bolna hai.

Person kii Ability kii English se hello hai.
Student to hamesha English hi bolta hai.

Lav-jahar Head, Shame se buku jata hai.

And Heart deep dene se bhar jata hai.

Oor yeh sab very very wrong hai.

In Reality, desh bhole ki priya hai.

Hame apni Daily life me hindi Language kii jalsa hai,

World Wide mein jalsa hai,

Only then bheji or bheji bharat maata kii Dream hone se.

Vikhek Pancha, VIII - F
Basket Ball Inter House Competition

The Basket Ball Inter House competition was held on 3/07/13 at New Look School (K.H.) The Comp. was held in three Groups. Group 1 – Class I & II, Group 2 Class III & IV and Group 3 for class 5. Matches were held separately for boys and girls. Winner House For Group 1 is Red House, for Group 2 – Blue House and for Group 3 the winner is Green House.

1. When I give a lecture, I accept that people look at their watches, but what I do not tolerate is when they look at it and raise it to their ear to find out if it stopped.
   - Marcel Achard

2. There are three great friends: an old wife, an old dog, and ready money.
   - Benjamin Franklin

3. Giving birth is like taking your lower lip and forcing it over your head.
   - Carol Burnett

4. You have to stay in shape. My grandmother, she started walking five miles a day when she was 60. She's 97 today and we don't know where the hell she is.
   - Ellen DeGeneres

5. Everything has beauty, but not everyone sees it.
   - Confucius

Answers:
1. Dr. A.P.J. Abdul Kalam
2. Mathematician
3. Aristotle
4. 81
5. Sushil Kumar

Winner House For Group 1 is Red House, for Group 2 – Blue House and for Group 3 the winner is Green House.

CHOCOLATE CAKE

INGREDIENTS:
- 400 gm (3 1/4 cups) plain flour (Maida), 60 gm (3/4 cup) cocoa powder, 4 tsp baking powder, 1/2 tsp baking soda, 60 gm sugar, 800 gm (2 cans) sweetened condensed milk, 300 ml (1 1/2 cups) milk, 200 gm (1 cup) molten butter, 1 tsp vanilla extract

METHOD: Grease and line an 8" square, 12" round or two 9" round cake tins with greaseproof paper. In a large bowl, beat sugar and butter until light and creamy. Add in the vanilla extract, milk, and condensed milk. Mix well. Add the flour and baking powder and stir until just combined. Bake in the preheated oven for 1 hour or until skewer inserted in the middle of the cake comes out clean. Allow to cool completely.

INGREDIENTS:
- 350 ml (1 1/2 cups) water, 444 cup sugar,

METHOD: In a saucepan mix the sugar into the water and cook on medium flame until the syrup comes to a boil. Allow to cool completely.

INGREDIENTS:
- 500 gm (2 cups) cream (ready to whip rich soy cream or heavy whipping cream), 6 tbsp icing or confectioners’ sugar (only if using unsweetened whipping cream)

METHOD: In a chilled bowl, whip the cream until stiff peaks form. Mix in colors (preferably natural) if required.

Assemble the cake: Once the cake is done, cool on a cake rack. Place the cake on a cake board or a serving plate. Pour the sugar syrup carefully over the cake to moisten and wet the cake. Spread the cream evenly over the cake. Pipe the remaining cream with decorative icing. Cool in the refrigerator for a minimum of 2 hours before serving.

Kadam Jain, VII

Do you know why people put a red dot on a new baby's forehead on Diwali? It’s a blessing and in honor of the goddess Radha, who is usually shown with a red mark on her forehead.

"A good teacher is like a candle, which burns itself to enlighten the life of others". Inspiring from this, Students of school and college celebrated Teachers' Day with full enjoyment in the campus of New Look Institutions. Mr. Pradeep Kothari, Director of New Look Institutions gave the speech on the inspiring contribution of Dr. Sarvepalli Radhakrishnan. He also described various traits which ought to be in an effective teacher. Students also grabbed the opportunity to show their immense love and respect towards teachers. The students and teachers got the rewards for their excellent performance in the institute, from Bharat Vikas Parishad. Many entertainment activities were also held like Dances, Games for teachers and few competitions.
Dhyanchand Jayanti was celebrated in school by dedicating few hours for sports and play group activities, from classes nursery to 12th, like Basket Ball, Foot Ball, Hand Ball, Rope Climbing, Trampoline Jumping, etc. Students participated actively and joyfully under the Guidance of class Teachers and PTIs.
Green Day Celebration

Green Day was celebrated on 30th Aug 2013, students were asked to wear Green dresses and bring Green stuff for eating and carrying. Also they planted many plants in the garden area.

LN Jhunjhunwala Visited NLCS

Newlook was honored when Syt. LN Jhunjhunwala, Founder of LNJ Group of Industries visited School on 27th July 2013. He was accompanied with Shri JC Laddha, Shri Raghunandan and Shri Sanjay Sharma. Shri Pradeep Kothari, Director of NLCS, Mr. Deep Kothari, Mrs. Shikha Kothari welcomed LNJ heartily. Waakpith members also showed their warmth by presenting a Turban and garland to LNJ. LNJ addressed the audience and Shri Pradeep Kothari, Present a Shawl and Memento and gave vote of thanks.

Raksha Bandhan Celebration

At NLCS Rakshabandhan was celebrated with full enthusiasm on 19th Aug 2013, in junior classes. Girls tied the Rakhi on boys’ hands.
My Teacher

Oh! My teacher,
You made my future.
You are the dearest,
And so very modest.
I wanted to become good,
And you made me the best.
When I was blank,
You gave the text book.
I was not an intelligent child,
But you made me brilliant and mild.
I was poor at reading,
You enriched me by your teaching.

Khyati Gautam
VI C, NLCS

Come to school just in time,
Go for prayer in a line,
Don't throw papers on the ground,
Give the teacher what you found.

Come to school neat and clean,
Wish the teacher when you meet,
Bring your lock and bring your key,
Don't forget to pay your fee.

Do your homework every day,
In your class must not play,
When you go out of the class,
Don't forget to take the pass.

Follow, follow every rule,
If you want to study in New Look School.

Information About----

DRIVING FORCE

Jonka Company - if you blink, you might miss the fastest vehicles around.

Race Cars -
1. Some race cars zoom faster than 300 miles per hour-too fast for highway.
2. A few are so fast, they need parachutes to slow down.

Interceptor -
1. The fastest police car is the interceptor. It can catch almost anything.
2. The interceptor is a special radio and speed-checking radar. The police use this equipment to call for backup when a speeder is on the loose.

Dune Buggies -
1. Dune buggies fly across the sand! They have special wheels to drive on sand-the average car would get stuck.
2. The dune buggies also have special role cage that keeps the driver safe if the car flips over while crushing the dunes at top speed.

Jet Car -
1. The jet car is the fastest thing on wheels! In 1994, a jet car broke the world land speed record and went supersonic. That's faster than the speed of round more than 763 miles per hour.

Bullet Trains -
1. Bullet Trains are the fastest trains in the world-reaching speeds greater than 185 miles per hour.
2. Because they are so fast, bullet trains have special express rails built just for them.

High Speed -
1. These vehicles built for HIGH-SPEED! Speed. Hold on Tight!

Speech Competition
In the month of July 2013, Om Shirdi Sai Baba Trust has organized a Speech Competition for all school students of Banswara. Pritesh Vyas of New Look Central School, Lodha secured first position and accepted prizes from renowned personnel of the city

Eat & Learn Program
On 04-08-2013, New Look School has organized an "Eat & Learn Program" for pre primary classes, in which senior students of Class IX taught the little masters, Salad Making, Garnishing, Table Etiquettes, and importance of hygiene while having food by giving demos of Hand Washing and Napkin Spreading.

All the students enjoyed each other's support and learnt new things.

Adhaar Saptah 22-08-2013
Students of New Look, from class IX to XII took part in Essay Writing competition during "Adhaar Saptah" and secured top three positions for them.

Janmashtami 28-08-2013
In the event 'UTSAV' organized by Dainik Bhaskar on the occasion of Janmashtami, New Look School stood first by beating other competitors in Dance Competition.

Krishna Janmotsav was celebrated in New Look with full enthusiasm and cheerfulness; students took part in Dahi Handi, Rangoli competition, Fancy dress competition, Mehndi competition etc.

Independence Day Celebration
On 15th Aug 2013 Swatantrata diwas was celebrated with great enthusiasm at NLCS large Play Ground. Celebration started with Flag Hoisting, followed by a beautiful Parade. Prizes and mementoes were provided to the meritorious students of different classes by Mrs. Lata Kothari, Principal and Mr. Deep Kothari. Then the audience was overwhelmed by cultural performances.

NCC cadets awarded in Bhilwara
An inter-group competition organized by NCC in Bhilwara in which 12 cadets of New Look School took part in Army, Navy and Airforce groups. Mufaddal Tati and Misbah Kadri of New Look School were selected as Best Cadets in Junior Division. The award was given by Col. Madhur Goyal.
DO YOU KNOW?

1. During an average lifetime, the heart will pump nearly 1.5 million barrels of blood enough to fill 200 trains tank cars.
2. Five percent of blood supplies the heart, 15-20% goes to the brain and central nervous system, and 22% goes to the kidneys.
3. The "Thump-thump" of a heart beat is the sound made by the four valves of the heart closing.
4. The heart does the most physical work of any muscle during a lifetime. The power output of the heart ranges from 1-5 watts. While the quadriceps can produce 100 watts for a few minutes, an output of one watt for 80 years is equal to 2.5 gigajoules.
5. The hearts begins beating at four weeks after conception and does not stop until death.
6. A new born baby has about one cup of blood in circulation. An adult human has about four to five quarts which the heart pumps to all the tissues and to and from the lungs in about one minute while beating 75 times.
7. The heart pumps oxygenated blood through the aorta (the largest artery) at about 1 mile (1.6km.) per hour. By the time blood reaches the capillaries, it is moving at around 43 inches (109 cm.) per hour.
8. Early Egyptians believed that the heart and other major organs had wills of their own and would move around inside the body.
9. An anonymous contributor to the Hippocratic collection (or canon) believed vessel valves kept impurities out of the heart. Since the intelligence of man was believed to lie in the left cavity.
10. Plato theorized that reasoning originated with the brain, but that passion originated in the ‘fiery’ heart. healthy heart pumps approximately 2000 gallons of blood a day.

Eliminate Negative Feelings

The word ‘No’ itself suggests negativity. Whenever we hear the word ‘No’ we don’t feel good we feel as if there is some negative feeling.

Negative feeling drain our energy, while they may be unavoidable at times to face injustice or for self-presentation, you should decide when such negative emotion is necessary. Generally, people tend to avoid those who have habitually negative attitude.

1) Gain control of your feelings.
2) Be aware of your ‘self talk’. What are you silently saying to yourself?
3) Negative feeling often carry over into conversations in the form of non verbal signals which may be incongruent with what you are trying to get across.
4) When negative feeling affect your self-confidence, practice positive self talk. Develop a list of positive affirmations, with statement like

I will...
I can.....
I am.....

Topic: Dress Appropriately

When you know you look good, you feel good about yourself. When you dress appropriate to the occasion, you are not drawing attention to yourself. Your listener will think, consciously or sub-consciously, that you are ‘one of us.’

This adds communication.

1) Find out what dress is considered appropriate. For eg. Attire that is acceptable in a certain city may not be appropriate in the same situation in another one.
2) Be sure your clothing sends the message you intend.
3) Wear clothing that is congruent with your verbal message. If for eg. You are a business women in a business situation lacy blouses will not advance a serious message. Similarly when everyone in the office is dressed in business attire and you show up in a jeans and T-shirt, you are not attire, unless it’s a day designated as ‘casual’.
4) Read a book on how to dress for various situation such as public appearances or business meetings.

Amazing Facts

- A drop of blood contains about 100 million red blood cells.
- Indonesia is made up of nearly 14,000 islands.
- A hippo can open its mouth to about 4 feet wide.
- The liquid inside young coconut can be used as a substitute blood plasma.
- Liver is only human organ, if partially removed grows back to its original size.
- A giraffe can clean its ears with its 27 inch tongue.
- A drop of blood contains about 100 million red blood cells.
- Indonesia is made up of nearly 14,000 islands.
- A hippo can open its mouth to about 4 feet wide.
- The liquid inside young coconut can be used as a substitute blood plasma.

From the Tree's Heart

I'm a tree & that's my story, smiles I spread & take over the worries. I'm born to help, my existence is for mankind. I give you air I give you food, I give you shade & shine. The irony of my life is, I'm here to serve, Humans cut me down for their needs, is that what I deserve?? I give the fragrance, I maintain the life cycle, Humans are my users and unfortunately my rivals. I stand in the corner & talk to small plants. I ask them not to grow up, they don't stand survival chance, I wonder why humans have the power, why humans have the brain. They use me for their desires, my effort sacrificed in vain, I'm a tree and that's my story, and for myself sometimes I feel sorry. You use my flowers as garland or grave, you use flower bouquet on glory, Just to express your feeling you sacrifice my life. A day when I'll become extinct, you bet for your life you'll strive, I'm a tree & that's my story, no complaints & born to serve, Smiles I spread & take over the worries!!!

Can The Teacher be Replaced by Modern Technology

21st Century, A century of superfast express where everything is going back and new things are coming. As you all know that India is developing country, so here the changes that take place little later. We have heard that in western countries many children don't go to school. This is just because there are computers at their places through which they study. But do you really think that it can happen in India? The answer is 'No'.

There are many reasons for this. For example, half of population of India is uneducated or illiterate. Secondly, thousands of people can't afford a computer because they are not having enough money. Thirdly, now also among the literates many people don't know how to run a computer because they don't want to change with the world. There are always two sides of coin. Likewise, this topic has also two sides i.e. advantages and disadvantages. But first we shall talk about advantages. We know that as children grow in western countries they become self dependent. The chief reason behind this is, they do part time jobs. They develop self confidence in themselves by doing the jobs. Now we shall see the disadvantages of teacher being replaced by computer. From centuries in our country the relationship between a teacher and a student is respected. Thousands of years ago a student use to live with his teacher in the 'Ashram' or 'Gurukul' until he didn't complete his studies. But now the world has changed. Nobody is having much time to go and stay with teachers. That is why schools were introduced.

So, in my opinion if computers take place of a teacher, we'll lose a good guide in our life who takes us on right path. Computers can never take place of teacher.

The Aim of Education

E - Eradicate ignorance and illiteracy.
D - Develop a sense of discipline.
U - Utilize the power of understanding.
C - Cultivate a sense of curiosity and creativity.
A - Acquire the Quality of inspiration.
T - Teach the quality of tolerance.
I - Inculcate interest for acquiring knowledge.
O - Obedience to elders in life.
N - Noble and humble in life.

Muskan Pandya

Glittering Rays of Inspiration “Sneh Jyoti”

Going blind ends someone’s life but not in case of “Sneh Jyoti”. These members learnt to overcome the hurdles of life by their music. New Look Institute got opportunity to witness their performance, moment when they put their fingers on instruments; students were spell bound, mesmerized and inspired that nothing is impossible for anyone.

An Event by Dainik Bhaskar

Dainik Bhaskar has organized young-reader engagement program “Junior Editor II” in New Look premises. Students and staff members demonstrated their creativity talent by participating in the competition. Yash Chopra of class IV brought proud and glory to the school by becoming panel choice winner. On the same day, a quiz competition was also conducted in which participation of students was fostering the event and the winners were awarded.

College girls took an oath to Vote

In the program of ‘SVEEP’ - Systematic Voters’ Education and Electoral Participation to motivate the girls of Vagad region and to respect their right to vote, Jila Parishad, Banswara has organized a seminar “SVEEP” in Newlook Girls’ PG College, Lodha, Banswara. The program also included the songs with lyrics of ‘Mathaana Jaagrutika’ and tunes of famous folk songs. The program succeeded in answering the curious questions of students.

“Our Greatest Natural Resource is the Mind of our Children”
Driving In India : A Critic

Driving in India is a cool refreshing experience where you don’t have any fear of breaking rules, paying fines or ending up in jails. For someone not conversant with rules of driving, if there’s any confusion as to which side of the road to drive, the answer is “Well why not both.”

And yes, don’t drive only on the road, it might be too slow. To become perfect drivers on Indian roads follow certain rules.

1. Don’t stop a pedestrian crossing just because somebody wants to cross the road. You will get hit at the back, for sure. People are warned to cross the road only when traffic is slow i.e. on occasion when VIP is visiting the town.

2. Keep magazines and comics in the car along with the First-Aid Box. They serve as time killer when you get stuck in jams for hours.

3. Beware of trucks. Truck drivers and youngster of India become perfect drivers on Indian roads follow certain rules. And yes, don’t drive only on the road, it might be too slow. To become perfect drivers on Indian roads follow certain rules.

4. Because of road signals and lights. Red doesn’t mean to stop but to continue moving. However, Don’t dare to dash ahead. Be careful about truck signals, hazardous as the people on the other side with red light may be dashing ahead. Be careful with truck signals, hazardous as the people on the other side with red light may be dashing ahead.

5. Don’t confuse UFO’s with buses. They often look the same with blinking light, strange views and sound. These UFO’s move at a neck breaking speed, seeking contact with the ALMIGHTY often meets with success.

6. Always carry some extra money with you, because a traffic policeman for a change can catch you and you don’t have any fear of breaking rules, paying fines or ending up in jails. For someone not conversant with rules of driving, if there’s any confusion as to which side of the road to drive, the answer is “Well why not both.”

Grammar villa

A man named ‘Noun’ and his wife named ‘Verb’ live in a house of grammar. They have two sons and a daughter. The older son acts on behalf of his father in the latter’s absence so people called him ‘Pronoun’. The younger son ‘Adjective’ is a poet. He loves describing things.

His sister ‘Adverb’ often takes care of her mother. There is a servant in the house who is a jester, people call him ‘Interjection’. He does many things to amuse people. Mr. Noun has a brother in law called ‘Preposition’, who helps by showing his position in life. ‘Conjunction’ is a dear friend of the family and helps them to make friends.

N...
Students of NLCG bid adieu to their seniors a rocking farewell party.
Overwhelming responses and whistles received when the seniors stepped their feet on stage. After that Principal Mr. Pabhulal Sharma lit the lamp in front of Goddess Saraswati and addressed students. He encouraged students to become good persons and dilate their aromatic fragrance all over the world.

Dance performances and fun games by juniors kept enthralled all from beginning to end. Toppers of college were honored by the Director. Senior students were presented by Mementos and video of the memories of past years in college. Miss Preeti Kotwaria was honoured as Miss New Look.

People who ride on roller coasters have a higher chance of having a blood clot in the brain.
People with darker-skin will not wrinkle as fast as people with lighter-skin.
Cat's urine glows under a black light.

Khushi Jain
VI-E
As life has a vacuum without true friends. Standing by our side, a true friend would never lie. It's hard to imagine life without friends. They are the ones who can always save you. They are like a precious pearl; they never say goodbye to you. It's difficult to search for true friends in the world. A friend is one who is always with you. You are the one who makes trouble gone. You are the one who taught me life. How not to fight and what is right. You are the word inside my song. You are my love, my life & my soul. You are the one who cares for me. You are the eyes that help me see. You are my love, my life & my soul. You are the sunlight in my day. You are the moon I see far away. You are my greatest friend I know. You are my friend, my heart & my soul. You hear my heart and my scream. You are the one who helps me in my dream. When it's time to have fun or rest. You are the one who knows me best. You are the eyes that help me see. You are my love, my life & my soul. You are the word inside my song. You are how not to fight and what is right. You are the one who makes trouble gone. You are the tree I lean upon. You are my love, my life & my soul. You are the sunlight in my day. You are the moon I see far away. You are my greatest friend I know. You are my friend, my heart & my soul. You hear my heart and my scream. You are the one who helps me in my dream. When it's time to have fun or rest. You are the one who knows me best. You are the eyes that help me see. You are my love, my life & my soul.
DENIAL OF SERVICE ATTACK

Denial-of-service attack, is a type of attack on a network that is designed to bring the network to its knees by flooding it with useless traffic. Many DoS attacks, such as the Ping of Death and Teardrop attacks, exploit limitations in the TCP/IP protocols. For all known DoS attacks, there are software fixes that system administrators can install to limit the damage caused by the attacks. But, like Virus, new DoS attacks are constantly being dreamed up by Hacker.

VIRUS DISSEMINATION

Malicious software that attaches itself to other software. (virus, worms, Trojan Horse, Time bomb, Logic Bomb, Rabbit and Bacterium are the malicious.

Cybercrime is defined as offences that are committed against individuals or group of individuals with a criminal motive to intentionally harm the reputation of the victim or cause physical or mental harm to the victim directly or indirectly, using modern telecommunication networks such as Internet (Chat rooms, emails, notice boards and groups) and mobile phones (SMS/MMS). Such crimes may threaten a nation's security and financial health. Issues surrounding this type of crime have become high-profile, particularly those surrounding copyrighting, child pornography, and child grooming. Cyber crimes can be classified into the following categories.

HACKING

Hacking in simple terms means an illegal intrusion into a computer system and/or network. There is an equivalent term to hacking i.e. cracking, but from Indian Law's perspective there is no difference between the term hacking and cracking. Every act committed towards breaking into a computer and/or network is hacking. Hackers write or use ready-made computer programs to attack the target computer. They possess the desire to destruct and they get the kick out of such destruction. Some hackers hack for personal monetary gains, such as to steal the credit card information, transferring money from various bank accounts to their own account followed by withdrawal of money. They extort money from some corporate giant threatening him to publish the stolen information which is critical in nature.

CHILD PORNOGRAPHY

The Internet is being highly used by its abusers to reach and abuse children sexually, worldwide. The Internet is very fast becoming a household commodity in India. It explosion has made the children a viable victim to the cyber crime. As more homes have access to internet, more children would be using the internet and more are the chances of falling victim to the aggression of pedophiles. The easy access to the pornographic contents readily and freely available over the internet lowers the inhibitions of the children.

CYBER STALKING

Cyber Stalking can be defined as the repeated acts harassment or threatening behavior of the cyber criminal towards the victim by using internet services. Stalking in General terms can be referred to as the repeated acts of harassment targeting the victim such as following the victim, making harassing phone calls, killing the victims pet, vandalizing victims property, leaving written messages or objects. Stalking may be followed by serious violent acts such as physical harm to the victim and the same has to be treated and viewed seriously.

DENIAL OF SERVICE ATTACK

A Denial-of-service attack is an attack on a network that is designed to bring the network to its knees by flooding it with useless traffic. Many DoS attacks, such as the Ping of Death and Teardrop attacks, exploit limitations in the TCP/IP protocols. For all known DoS attacks, there are software fixes that system administrators can install to limit the damage caused by the attacks. But, like Virus, new DoS attacks are constantly being dreamed up by Hacker.

VIRUS DISSEMINATION

Malicious software that attaches itself to other software. (virus, worms, Trojan Horse, Time bomb, Logic Bomb, Rabbit and Bacterium are the malicious.

SOME METHODS FOR PREVENTION AGAINST CYBERCRIME:

We all know that the Internet is a cool place to hang with friends and check out new things. But don’t forget about the Internet’s risks and dangers. If you’re going to use the Web, do it safely! Here are some suggestions on what you should and shouldn’t be doing online to help protect you against the bad stuff. Be careful online.

Never reveal personally – identifiable information online. A lot of creeps use the Internet to take advantage of other people, especially kids and teens. Never reveal any personally-identifiable information online, whether it’s on your profile page or in a blog, chatroom, instant messenger chat or email.

- Always use a screen name instead of your real name.
- Never give out your address, telephone number, hangout spots or links to other websites or pages where this information is available.
- Be careful about sending pictures to people you do not know very well.
- Never reveal personal or private information about your friends or family.
- Never assume you’re completely anonymous online. Even if you don’t put personal information online, there are different ways that people can still figure out who you are and where you live.

- Never share your password with other people (except for your parents).
- Never arrange meetings with strangers.
- Don’t believe everything you read or see online.
- Don’t download files or software without knowing proper detail about it.
- Don’t respond to inappropriate messages or emails.
- Don’t post inappropriate content.
- Be leery of personal questions from strangers.
- Don’t be bullied into fights.
- Don’t use adult sites.

CYBER CRIME:

Er. SACHIN GUPTA (Faculty - Computer Science, NLGC)

Cybercrime are defined as offences that are committed against individuals or group of individuals with a criminal motive to intentionally harm the reputation of the victim or cause physical or mental harm to the victim directly or indirectly, using modern telecommunication networks such as Internet (Chat rooms, emails, notice boards and groups) and mobile phones (SMS/MMS). Such crimes may threaten a nation's security and financial health. Issues surrounding this type of crime have become high-profile, particularly those surrounding copyrighting, child pornography, and child grooming. Definition for a smile given by different subjects:

Physics:
"Smile" is based on Newton's 3 law of motion. Whenever one is happy, amused or excited the rectory forces cause the lips to gain speed & accelerated in an upward direction. If force has high intensity, it may cause laughter. The transformation of energy takes place when the joy is changed into a smile.

Biology:
"A SMILE is a physical act which is highly communicable often causing a chain or epidemic because viruses spread in the air especially when the teacher's back is turned?"

Chemistry:
"Two elements are present near ends of lips which get activated when one is in a jolly mood. They start repelling each other & cause an upward movement of lips. This is known as Smile".

Maths:
"Smile follows the rule of exponents. Once set in motion they go on multiplying exponentially until the whole company is electrified."

Literature:
"Smile is white & while you smile, you will see miles and miles of smiles. Life is worthwhile because of your smile."

Examination Fear

I am full of fear because my exams are near. I haven't studied at all so. I will have to sit and study at night fall. If I can't get proper sleep. I will doze off while writing answers on sheet. But don't be crazy like me. And study also though tea. Thus if you study throughout the year. You will have no examination fear. But the exams are there. At the paper you stare. The answer is nowhere which makes you pull your hair. The teacher make you glare. The grades are not fair. But just like the past 11 years We don't care!!!!

The Golden poet - Goldsmith

You have your own special dreams

In the dream of your next new day, wake up and realize what a wonderful person you are. Remember that you are loved. And that you have good friends who will always be beside you, and that you have your own special dreams. Always there to reach out for and to guide you. You're such a precious person. So believe in yourself and don't ever quit. You're a winner in my book, and the world is lucky to have you as a part of it.

Thoughts

Nice line...
I have always been afraid of losing people I love so much, but at times I keep asking myself—"Is there anyone who’ll be afraid of losing me too?"

Define “TODAY”
T - Thank you God for one more
O - Opportunity to
D - Do
A - All actions better than
Y - Yesterday

"You love me or hate me, both are in my favor. If you love me I’ll always be in your heart and if you hate me I’ll always be in your mind"! If we lose a PEN, we can buy a new one. But if we lose a 'PENCAP', we can't buy a new one... So care for every small thing in your life.

Don't get attached to someone so much, it hurts later......

Shakespeare Said

"If one day you feel crying... Call me. I don't promise you that... I will make you laugh. But I can cry with you. If one day you want to run away Don't be afraid to call me. I don't promise to ask you to stop, But I can run with you. If one day you don't want to listen to anybody, Call me and..... I promise to be very quiet. But... If one day you call and there is no answer..... Come fast to see me..... Perhaps I need you.......

देश में डेवलपमेंट हो रहा है।
कलाकारी, धीरजकारी में ढुंढ ढूंढ हो रहा है।
क्योंकि देश में डेवलपमेंट हो रहा है।
हर मॉडल का फॉर्मूला हो रहा है।
सभी तो बदना सर्वेक्षण हो रहा है।
क्योंकि देश में डेवलपमेंट हो रहा है।
हर आँध्र प्रदेश का रेशम कर रहा है।
पूर्वीवाद और व्यावसाय में एक्सपेंशन हो रहा है।
क्योंकि देश में डेवलपमेंट हो रहा है।
आजकल पैशन में परस्पर सुदुर्घन हो रहा है।
गीते के सन्दर्भ, उपर से नीचे ताजटाज हो रहा है।
पैशन का बाली का एक्स्ट्राइमेंट हो रहा है।
क्योंकि देश में डेवलपमेंट हो रहा है।

देश में डेवलपमेंट हो रहा है।

कीता का रेता

होली की दिन जनमान
एक रेता का रेता,
सूरक्षा बन गया
वैसे से नहीं लेत?
पैठे होते ही कमाल कर गया,
उठ, चैत और
रेता की कुंडली पर बच गया।
यह रेता कर होकर पराक्रम,
बोली ये तो अवस्था है।
इसके सामने तो सामर्थ्य भी बुझ है।
इसे कुछ और लिखते हुए भुंजा शिशु है,
उस की ताकत तुलनकारी,
शिशु के पुतले शिखने के
पात नहीं नहीं नहीं की पकड़ कलाई।
बोला अति ही महत्वपूर्ण है।
तुम का तुम का शिक्षा के
उपर नमक नमक नमक।
रेता और होकर के
समझने पर भी वह नहीं मानता।
वीके- चैत का अपातक स्तर पर उत्कृष्ट,
वीर ग्यारह वीर ग्यारह का गान।
उसके विपरीत पे 'होली का जश्न' चा गई।
शिशु ने अंतर्मित पीठ देख
रेता जी पकड़ एवं बोले,
क्यों कर रहे हो अपातक?
शिशु ने बोला
रुकती ही आंसू हूँ,
और नाम है ब्रह्मचार।

Sometimes life may seem like a tunnel endless and dark but don't concentrate on darkness concentrate on the light at the end and you will succeed.
“क्या करी पृथ्वी जन्म होगी?”

वहाँ के साथ होने की आश्चर्य सादृश्यों में जरूरत ही इसके तरीके थे।

लग 1910 में कुछ लोग ने दावा किया कि वह एक नवीकरण काल की तरह हुआ। वे उसके बाद बह गए गर्मी के साथ पति पुतले समय वायी जनरेटर ने भी जाना आया। यह वह ने जा के घर पर काट के दूसरे से एक दूसरे की माया का सफाई करता रहा।

लग 2000 में कुछ दूसरा दावा कि 5 मई 2000 के बाद से लोगों के जरिए यह एक चिंता ने होने लगी क्योंकि तभी काल के लोग जाना आया। जननी घरों का जाना। वह समय में लोग अपना बना रहे थे। वह इतने लागभाग से पति पुतले और साधना के जरिए रहने से साथ लगा के वर्तमान की पूरी जानी नहीं हो गई।

लग 2000 के दौरान यह कहा जा रहा है कि 666 नामक भाषा नामक भाषा। एकल रूप से पूरी भाषा नामक नामक भाषा।

Scientists are developing an electric eye that could help the blind to see.

In Denmark, no one lives more than 48 km from the sea.

375 different species of sharks are found in the world ocean.

Republic Day Celebration

The 65th Republic Day was celebrated by New Look Institutions with great patriotic fervor. The function started with hoisting the National Flag by the Director Mr. Pradeep Kothari followed by National Anthem. A wide range of activities centered around the spirit of national pride and love for the country. The main attraction when student make a ground alive by march past.

Educational Tour for college students

NLCG seeks to combine the education with the out-of-classroom activities which will help them gain practical knowledge and inculcate teamwork and leadership qualities. Students visited Padmpath University to explore new fields of study. They came to know about Softwares, Robotics, Soft Skills and the importance of computer education in recent trend.

Essay competition on Road Safety

New Look Institute has a rich history of nurturing the creative talents of students. In connection with observance of Road Safety Week, an essay competition for students of Class 8th to 10th was conducted on the topic “Safety on Roads.” Ayushraj, Deepak Trivedi, and Diksha Thakkar got I, II and III position respectively in Class X while in class VIII Ayush Gehlot, Nihali Jain, and Kunal Joshi got I, II and III position respectively. Winners are awarded by the District Transport Officer.

Friend

Dear God, Friend of all children
Thank you for my friend.
When they are sad, help me to
Make them happier.
When they are frightened, help me to
Make them brave.
When no one like them, help me to
Stand by them.
Help us always to play happily together &
Make me a good friend to have.

Thank You God

Thank you for the gift of life,
For letting me be me,
For all that I can know by words,
And all that I can see.
For all the music I can hear,
And all the songs I can sing,
For all the joy that comes to me,
And all the joy I being.
For all the food I can taste,
And all the sweet scents I smell,
For all the loved ones I can touch,
Who love and wish me well.
For all the beauty of the world,
Ever fresh and new,
I don't know whom else I can,
Thank and so I'm thanking you.

My Dear Mother

I have laughed when she laughed
I have wept when she wept.

Every time who dreams my developing
She is no any other, She is only my mother.
I always respect my dear, dear mother!
You teach me the lesson of ideal life.
You suffer yourself take cover of me
Your mission is to serve & Shape my life.
I thank you very much, my dear Mother
For showing me the wonder of mighty God.
Really I am indebted to you
For teaching the truth and gift of God.
O Mother! bless me, With your kindness
So I would face the suffering of life.
I should keep your words in mind
me in the darkness of pride.
Mother! Give me strength and courage.
I could face the miseries of life.
I give thanks to god
who made such a beautiful Butterfly

BUTTERFLY

A tiny insect egg
I saw on the plant in garden
Day by day it changes
into a caterpillar
Eating the leaves and finding place to sleep
It soon become a larva..
Day after day went by and I saw a cocoon
I waited and waited for it and
I was surprised when I saw it as a beautiful creature of God
A butterfly with colourful wings
I give thanks to god
who made such a beautiful Butterfly
